

2025
MUSEU EGIPCI DE BARCELONA

c. València, 284 Barcelona

Ours is an atypical museum. We are a private, non-profit foundation that depends economically only on its own activities that it organizes without receiving any public funds.

That is why, by renting a space in our facilities, you will not only get the service you want, but you will also be supporting culture and art.

The 1,300 archaeological pieces in our collection have been on display for over 30 years for all audiences in the city. Now, they will be on display for you.

Rent one of the Museum's floors and surprise your guests surrounded by pharaonic pieces.

Suitable spaces with everything you need for your meetings, events or gatherings

A quiet island interior in the beautiful middle of Barcelona

The Egyptian Museum of Barcelona is the only museum in the entire state with an Egyptian theme and the most important private museum in Europe of pharaonic pieces.

The museum space consists of 3 floors, distributed in two floors of permanent collection (with more than 1,300 original pieces) and one floor that hosts temporary exhibitions. Currently, in this space, we have an exhibition on the discovery of Tutankhamun's tomb with original photographs of this shocking historical moment.

You can organize any type of event, dinner, book presentation, product presentation, press conferences...

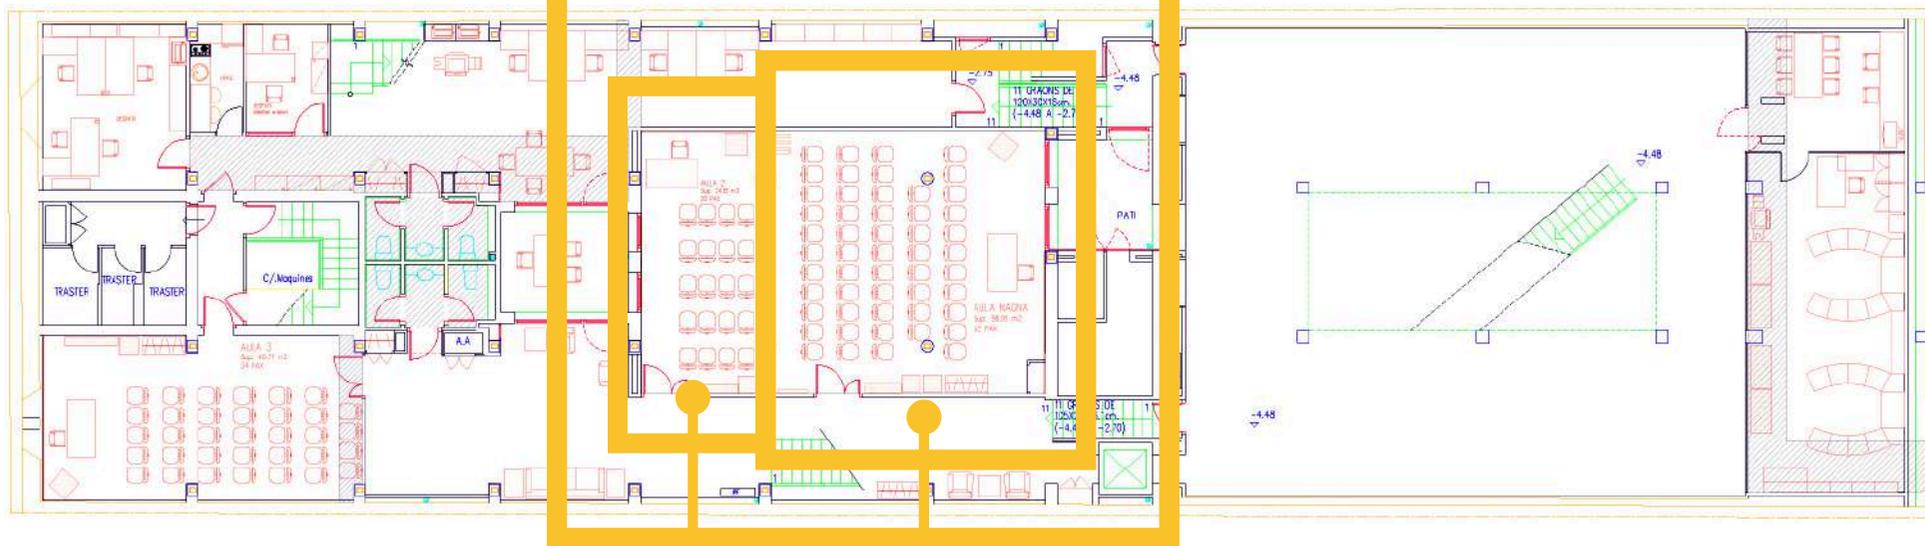

If you want to impress your guests, what better way to do it than surrounded by pieces that are more than 4,000 years old?
